Dear Kootenai County Board of Commissioners,

As you are likely aware, portions of TC Energy's Gas Transmission Northwest (GTN) interstate natural gas pipelines are located in Kootenai County. Last year, the Idaho Legislature passed Senate Bill 1061 ("S1061"), which was signed into law by Governor Little. The bill requires county permitting authorities and interstate pipeline companies to consult when developments are planned within one thousand (1,000) feet of the center point of the pipeline. The bill also requires interstate pipeline companies like GTN to annually file mapping information with the county as well as provide the contact information of three individuals from the relevant pipeline company to receive the necessary written notification when such developments are planned.

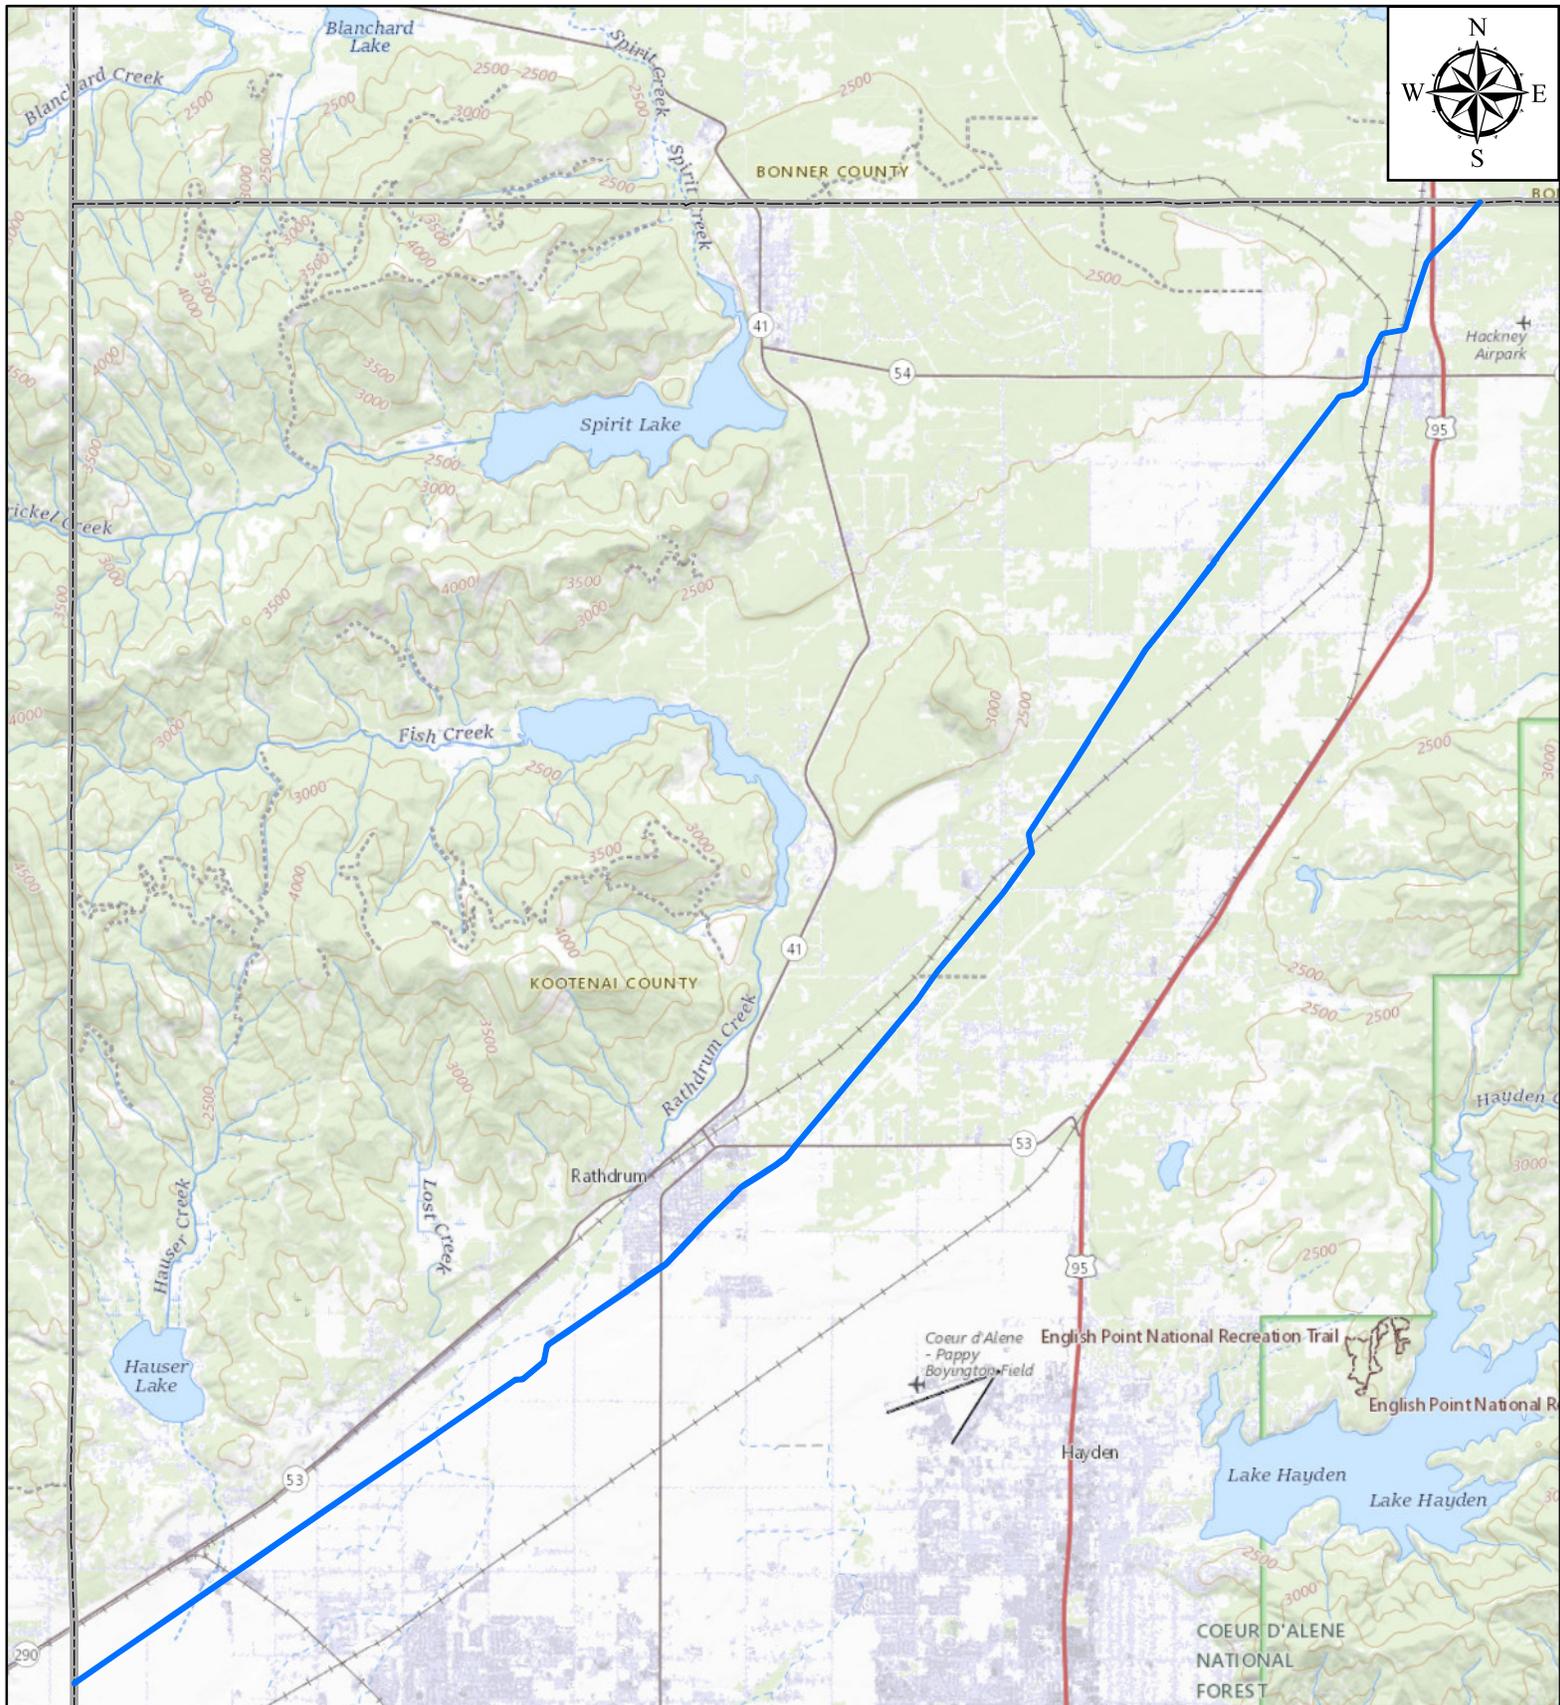

In order to satisfy the requirements of S1061 (now Idaho Code § 62-1104), enclosed is geographic information system (GIS) mapping information of the relevant GTN pipeline as well as contact information for three GTN representatives. Should any plats be filed within 1,000 feet of the center point of the pipeline, please provide notification to the following three individuals:
